--	--	---	--	--	---	--	--

NOTES: 1. This form is to be completed at most twice during the study: Once for the time period covering from randomization through day 7 post-randomization and the second time for the period covering days 8 through 28 post-randomization.

2. Drugs are listed by generic name. For a detailed list that cross references the trade and generic names of the drugs, see the Coding Section of the Ops Manual.

- A. Form is being completed for Study Days (check one)..... ☐ StudyDays 1-7 ☐ 8-28
- B. CHECK ALL THAT APPLY IF TAKEN AT ANY TIME DURING THE PERIOD FOR WHICH THIS FORM IS BEING COMPLETED.

- ☐ acetylcysteine (same as n-acetylcysteine, Mucomyst[®] or Mucosil[®]) ☐ Acetyl
- ☐ activated drotrecogin alpha (same as drotrecogin alpha, Xigris[®], or activated Protein C) ☐ Drotec
- ☐ aldosterone antagonists (such as spironolactone, Aldactone[®], eplerenone[®], Inspra[®]) ☐ Aldo
- ☐ aminoglycoside antibiotics (such as amikacin, gentamicin, kanamycin, tobramycin) ☐ Amikicin
- ☐ amphotericin B (not bladder irrigation; same as Amphocin[®], Fungizone[®], Amphotec[®], Ablecet[®], or Amphot
- ☐ angiotensin converting enzyme inhibitors (such as captopril, enalapril, fosinopril, lisinopril) ☐ Angio
- ☐ angiotensin receptor blockers (such as candesartan, losartan, valsartan) ☐ Angioten
- ☐ cyclosporin or cyclosporin A (same as Sandimmune[®] or Neoral[®]) ☐ Cyclospor
- ☐ diuretics (such as bumetanide, furosemide, torsemide, thiazides, metolazone, acetazolamide) ☐ Diuret
- ☐ erythropoietic agents (same as epoetin alfa, Epogen[®], Procrit[®], darbepoetin alfa, Aranesp[®]) ☐ Erythrop
- ☐ fenoldopam (same as Corlopan[®]) ☐ Fenoldo
- ☐ NSAIDs/COX-2 inhibitors ☐ NSAIDS
- ☐ tacrolimus (same as Prograf[®]) ☐ Tacro
- ☐ x-ray contrast media (intra-venous or intra-arterial, not oral, not gadolinium) ☐ XRAY
- ☐ other drugs which are thought to affect renal function ☐ OtherMed

Specify:

1. OtherMed12. OtherMed23. OtherMed34. OtherMed45. OtherMed56. OtherMed6
