**SECTION B: SF-12 QUALITY OF LIFE ASSESSMENT**

This interview will ask questions about your overall health, some specific health conditions, your lifestyle, and your typical daily activities. Remember, we are interested in how you feel about your health. Most of the questions are similar to what we asked in the first interview about 4-5 years ago. The information you provide today will help us to identify any changes that have occurred since that first interview.

Once again, I would like to remind you that all the information you provide is completely confidential. If you feel uncomfortable answering a question, you should feel free to tell me and we can skip it. Also, there are no right or wrong answers. If you don't know the answer to something, just tell me and we'll move on.

If you need to take a break at any time, just let me know. Are you ready? Let's begin.

B1. In general, would you say your health is:

**SECTION E: HEALTH AND HEALTH CARE**

Now I have some questions about whether a health care provider has ever told you that you have a particular health condition. As you consider your answer, please keep in mind that a health care provider can be a general doctor, a specialist doctor, a nurse practitioner, a physician assistant, a nurse, or anyone else you would see for health care.

- E1. Have you ever been told by a health care provider (that can be a doctor or nurse) that you now have or previously had: **YES NO REF DK** i: **IF YES:** How old were you when you were first told **OR** at the time of the first event **OR** when you had surgery?

**FOR FEMALES:**

J3b. Think about any pain or discomfort associated with your bladder and pelvic area. Include your genitals (vagina and perineum). On a scale of 0 – 10, with 0 being no pain or discomfort and 10 being pain as bad as you can imagine, how would you rate your usual pain or discomfort over the last month? **painbladf\_1**

IF MEDICATION AND VITAMIN BOTTLES ARE NOT AVAILABLE, PROCEED TO L2.  
 IF RESPONDENT COLLECTED MEDICATIONS AT THE BEGINNING OF THE INTERVIEW:

Now I'd like to collect some information about any medications you have taken over the past 4 weeks.  
 First I'd like to write down the information from the medications you have collected. This should only take a moment. Then, I will ask you some questions about vitamins or supplements.
