1. Days since randomization

DAYS

*Instructions: This form refers to the prior 6 months so that we can report usage practices per half year. The form is administered in-person at annual visits; at 6-month interim contacts certain items (highlighted in **green**) are skipped.*

This is a fully scripted form, meaning that the administrator reads scripts and each item on the form with no rewording or probing (unless indicated). The intention is to record what the participant knows and does not know. The approach is to read the script, read the question, and wait for a volunteered response; if none is forthcoming, then say "For example..." and read the possible responses, leaving it to the participant to say "I don't know". In a few cases the list of possible responses is long and a laminated card is handed to the participant as the question is asked.

PART A: ROUTINE MEDICAL CARE FOR DIABETES

READ: *These questions will collect information on how often you go to the doctor. First we'll talk about times you got care for your diabetes. Then we'll talk about doctor visits for non-diabetes care. Finally, we'll talk about urgent or emergency care.*

In this part, I'd like to ask how you get diabetes care. Think back to the past 6 months.

- Think about tests, procedures, and exams you got to check on your diabetes.
- Include care or check-ups you got because you had a problem related to your diabetes.
- We're not talking about what you do if you're sick or for an annual wellness check-up.
- Don't include times that you had to see someone right away, like for an emergency.

2. Think back to the last 6 months. Is there a place where you usually go to get care for your diabetes?

₁ Yes ₀ No

HUDCARE

At the Annual visit only:

IF NO ⇒ 1. Ask (a), give the participant the laminated card of responses, and check all that apply.

2. Ask (b) and check only one.

3. Continue to item 3.

(a) Select the reasons why you don't have a place to get routine diabetes care. [Check all that apply]

(b) Of these, what is the main reason you don't have a place to get routine diabetes care? [Check only one]

(a) all that apply

PART B: ROUTINE MEDICAL CARE OTHER THAN FOR DIABETES

READ: Now let's talk about times you had to get medical care that is not related to your diabetes.

- Think about tests, procedures, vaccinations (like a tetanus shot), and exams you got on a regular basis that are not for your diabetes.
- Include check-ups you got because you didn't feel well.
- Don't include emergencies when you had to get care right away.
- Don't include visits to the dentist or for a mental health issue.

4. Think back to the last 6 months. Is there a place where you usually go to get medical care not for diabetes? ₁ Yes ₀ No

7. Think back to the last 6 months. How many times did you have to stay overnight in a hospital for a planned test or procedure for any reason that was scheduled in advance? *[NOTE: Examples of routine diabetes care involving hospitalization include tests and procedures that are normally done as an out-patient but are done as an in-patient because of the status of the diabetes, including amputations, transplants, monitoring of pregnancy, or elective procedures – things that can be pre-planned. Examples of planned admissions not related to diabetes include childbirth (c-section or vaginal delivery) or an in-patient elective surgery.]*

 ₁ 0 ₂ 1 or 2 ₃ 3 or more

HUPROC

PART D: ACCESS TO HEALTHCARE

8. Think back to the last 6 months. Did a doctor suggest any medical care, tests, or treatments? Don't include dental care or prescriptions.

- ₁ no, did not see a doctor in the past 6 months
- ₂ no, saw a doctor but he/she made no recommendations
- ₃ yes ⇒ *Administer (a).*

(a) Were you able to get what the doctor suggested?

- ₁ Yes, for all that was suggested
- ₂ Yes, for some that was suggested ⇒ *If annual visit, administer (b)*
- ₃ No, not for anything that was suggested ⇒ *If annual visit, administer (b)*

(b) **At the Annual visit only:** Why weren't you able to get what the doctor suggested? *[NOTE Give participant laminated card of responses. Check only one.]*

- ₁ couldn't afford it
- ₂ insurance company wouldn't approve, cover, or pay for it
- ₃ insurance plan not accepted
- ₄ problems getting to doctor's office
- ₅ different language
- ₆ couldn't get time off work or school
- ₇ didn't know where to go
- ₈ was refused services
- ₉ couldn't get child care or care for disabled or sick adult
- ₁₀ didn't have time or took too long
