

V5_GEN_FORM

Donor Intraop

Date of Surgery		
	(mm/dd/yyyy)	
Left Lobe weight according to preoperative imaging (in grams)		
Right Lobe weight according to preoperative imaging (in grams)		
Donation procedure aborted before completion	Yes	No
Reason(s) for Procedure Abortion	Quality of donor liver	
	Insufficient liver mass	
	Technical difficulties in donor	
	Donor Instability	
	Recipient Instability	
	Unexpected medical findings in recipient	
	Recipient death on table	
Other (specify)		
If other, specify reason		
Resected graft transplanted into recipient	Yes	No

Reason(s) for Nontransplantation	Quality of donor liver
	Insufficient liver mass
	Recipient Instability
	Unexpected medical findings in recipient
	Recipient Death on table
	Other

If other, specify reason	
--------------------------	--

Right Lobe weight post-resection in OR (in grams)	
---	--

Residual Volume in Donor (in percent)	
---------------------------------------	--

Preoperative/Intraoperative Biopsy performed	Yes
	No

% Microvesicular Fat	
----------------------	--

% Macrovesicular Fat	
----------------------	--

Specify any other findings	
----------------------------	--

Epidural Anesthesia	Yes
	No

Epidural Analgesia (e.g. Duramorph)	Yes
	No

Total Number of Hepatic Veins From the Right Lobe Preserved for Anastomosis	
---	--

Site of First Vein Preserved	
------------------------------	--

Size of First Vein Preserved in mm	
------------------------------------	--

Site of Second Vein Preserved	
-------------------------------	--

Size of Second Vein Preserved in mm						
Site of Third Vein Preserved						
Size of Third Vein Preserved in mm						
Site of Fourth Vein Preserved						
Size of Fourth Vein Preserved in mm						
Site of Fifth Vein Preserved						
Size of Fifth Vein Preserved in mm						
Number of portal vein/ veins to Right Lobe		Number of hepatic arteries to Right Lobe				
Number of bile ducts From Right Lobe						
Post-resection cholangiogram performed	Yes	No	Cholangiogram Results <table border="1" style="display: inline-table; border-collapse: collapse;"> <tr> <td>Normal</td> <td>Stricture</td> <td>Leak</td> </tr> </table>	Normal	Stricture	Leak
Normal	Stricture	Leak				
Units of Transfused RBC's						
Hypotension (<100 mm Hg) during the surgery	Yes	Duration of Hypotensive Episode (s)- the total duration of the hypotensive episodes (if more than one episode occurred, add them together) in minutes				
	No					
Intraoperative Injury		Yes	No			
Intraoperative Injury Description	Bile Duct	Hepatic Artery	Portal Vein	Other	If other, specify injury	
Other Complications		Yes	No	If other, specify complication		

Other Intraoperative Surgical Procedures performed at the time of donation surgery	Yes	No
Total Length of Operative Procedures (in minutes). Defined as incision to skin closure and dressing		Total Anesthesia Time (in minutes). Defined as induction to skin closure and dressing
