

V5_GEN_FORM

RCP Cond. @ TXP

Recipient medical condition immediately prior to transplant	Patient in ICU
	Hospitalized, not in ICU
	Not Hospitalized
Recipient on ventilator immediately prior to transplant	Yes
	No
Recipient functional status immediately at transplant	No activity limitations. (NYHA Class I or Class II)
	Performs activities of daily living with some assistance. (NYHA Class III)
	Performs activities of daily living with total assistance. (NYHA Class IV)
	Patient hospitalized
	Unknown
Recipient employment status immediately prior to transplant. WORKING indicates that patient is employed or attending school. NOT WORKING indicates patient is unemployed and not attending school.	Working full time
	Working part time by choice
	Working part time due to disease
	Working part time reason unknown
	Not working by choice
	Not working due to disease
	Not working, unable to find employment
	Not working, reason unknown
	Retired
	Employment status unknown
Recipient weight immediately prior to transplant in kg	(divide weight in pounds by 2.2 to get kg)
Recipient primary diagnosis at listing	

Recipient secondary diagnosis at listing	
--	--

Recipient tertiary diagnosis at listing	
---	--

Recipient diagnoses changed between enrollment and transplant	Yes
	No

	Recipient primary diagnosis at transplant (only if changed)	
--	---	--

	Recipient secondary diagnosis at transplant (only if changed)	
--	---	--

	Recipient tertiary diagnosis at transplant (only if changed)	
--	--	--

Recipient hepatocellular carcinoma diagnosis at the time of transplant	Yes
	No

Recipient Hepatitis C diagnosis at the time of transplant	Yes
	No

	HCV RNA last available test prior to transplant	Positive
		Negative
		Indeterminate
		Not Done

	Date of HCV RNA	
		(mm/dd/yyyy)

Recipient grade III or IV encephalopathy at transplant	Yes
	No
	Unknown

Recipient uncontrollable variceal bleeding at transplant	Yes
	No
	Unknown

Recipient ascites	Yes
	No
	Unknown

Recipient previous upper abdominal surgery prior to transplant	Yes
	No
	Unknown

	Upper abdominal surgery, Cholecystectomy	Yes
		No

	Upper abdominal surgery, Gastric Resection	Yes
		No

	Upper abdominal surgery, Small Bowel Resection	Yes
		No

Upper Abdominal Surgery, Other	
--------------------------------	--

Recipient spontaneous bacterial peritonitis at the time of transplant	Yes
	No
	Unknown

Recipient history of TIPSS at the time of transplant	Yes
	No
	Unknown

Recipient diabetes mellitus at transplant	No	(If insulin-dependent, non-insulin dependent, or Yes, type unknown) answered on previous question) Diabetes Treatment	Insulin
	Yes, Insulin Dependent		Oral Agent
	Yes, Non-insulin Dependent		Both Insulin and Oral Agent
	Yes, Type Unknown		No medications
	Other		

Recipient dialysis at transplant	Yes
	No

Recipient angina/coronary artery disease prior to transplant	Yes
	No
	Unknown

Recipient drug treated systemic hypertension at transplant	Yes
	No
	Unknown

Recipient serum creatinine at transplant	
	mg/dL

Recipient total serum albumin	
	g/dL

Recipient total serum bilirubin	
	mg/dL

Recipient INR	
Serum Aspartate Transaminase (AST, SGOT) closest to transplant	IU/L
Serum Alanine Aminotransferase (ALT, SGPT) closest to transplant	IU/L
Serum Alkaline Phosphate (ALK PHOS) closest to transplant	IU/L
Did the patient have HCC AND go to the OR with the intent to receive a liver transplant? If yes, then you must fill out the "HCC Data Immediately Prior to Transplant" form.	Yes
	No
Did the patient have HCV AND go to the OR with the intent to receive a liver transplant? If yes, complete the "HCV Data at Transplant" form.	Yes
	No
