

AASK Data Archive

The AASK Archive distributed on this CD-ROM contains the study protocol, manual, procedures, and other descriptive documentation; study forms; data collected by the study; and analysis files.

The files are organized into the following directories:

- AASK Forms
- AASK MOOP Documentation
- AASK Data
- AASK Integrity Check

AASK Forms

The AASK Forms directory contains two subdirectories:

- The “AASK PDF Forms” directory contains 43 files, comprising 42 pdf versions of forms. It also contains a spreadsheet, `archived_formlist_date_sum.xls` which lists the relationship of the 42 forms, table names, archived table names, and date variables.
- The “AASK WP Forms” directory contains 67 files, mostly Word Perfect documents. These include duplicates of some pdf versions of the forms, older versions, log forms, and order forms.

AASK Documentation

The AASK Documents directory contains two subdirectories:

- The “AASK MOOP” directory contains 26 files, 24 of which comprise the MOOP in the form of MS Word docs and two pieces correspondence.
- The “AASK Protocol” directory contains the AASK protocol (136 pages) as a MS Word document, a pdf file, and Word Perfect 5.1 document.

AASK Data

The AASK Data directory contains data and analysis files.

The top level of the directory contains five spreadsheets describing the forms and data sets:

- `AASK_columns_of_all_cvs_files.xls` - All column names from the cvs data files in the `AASK_New_Data_CVS` subdirectory
- `AASK_Oracle_tables_fields_form_numbers.xls` - Oracle variable names and the corresponding form numbers
- `AASK_tables_fields.xls` - Name of all Oracle tables, descriptions of all columns
- `AASKDataChanges.xls` - Modifications to six AASK tables
- `AASK_Archived_formlist_date_sum.xls` - Forms, tables, date variable, archive dates, PIDs (this spreadsheet is also in the PDF Forms directory).

AASK Oracle Data Subdirectory

The directory `AASK_Oracle_Data` contains the Oracle data tables. It is described by the

document "AASK Oracle Archive Background.doc." The directory contains Oracle .dmp and .log files and the schema.

AASK_New_Data_CVS Subdirectory

The directory AASK_New_Data_CVS contains the data from the Oracle tables in 54 spreadsheets (cvs format) that can be opened in Excel. The file "AASK_tables_fields.xls" lists the tables and the column names, however it also lists 5 archive files not in the directory: certification_archive.cvs, med_archiv.cvs, med_compliance_archive.cvs, med_compliance_archive_200249, and visit_archive.cvs.

AASK_SAS_Analysis_CV Subdirectory

Cardiovascular analysis files

- all_cvevt_all.sas7bdat
- cv_dth_hosp.sas7bdat
- first_cvevt_all.sas7bdat
- contents_cv.doc

AASK_Analysis_Current Subdirectory

Analysis files corresponding to the current database

- basecov.sas7bdat
- demo.sas7bdat
- evnt_all.sas7bdat
- evnt_dat.sas7bdat
- evt_0922.sas7bdat
- gfr_scrp.sas7bdat
- contents.doc

AASK_SAS_Analysis_200249 Subdirectory

Analysis files of April 9, 2002

- AASK_Trial_Analysis_Files_CV_Events.doc
- all_cvevt_all.sas7bdat
- cv_dth_hosp.sas7bdat
- first_cvevt_all.sas7bdat
- contents_cv.doc

AASK Integrity Check

The AASK Integrity Check directory data contains a report of an examination of the repository were examined for completeness by statisticians and quality control specialists at the Repository. Data sets were checked for completeness. The published data from the AASK study were compared to values recalculated from the AASK data in the NIDDK repository. These included blood pressure at baseline and during follow-up.

Contents of the CD

NIDDK Data Repository

06/10/2006

AASK Data (91 files 400 MB) MS Word, spreadsheet, Oracle, and SAS files

AASK Documentation (29 files 2.1 MB) pdf and WP5.1 files

AASK Forms (110 files 27 MB) MS Word and WP5.1 files

AASK Integrity Check (1 file 3.5 MB) pdf file
