

**AFRICAN AMERICAN STUDY OF KIDNEY DISEASE AND HYPERTENSION
AASK STUDY
GENETIC INFORMATION SHEET FORM # 71**

This form should be completed for each randomized patient who is currently on dialysis (or has received a transplant) and for each randomly selected patient, by February 1, 2000, to provide information about the existence and location of family members. (It will be filled out for other patients by April 1, 2000.)

The form may be completed by an AASK staff member in a phone interview or a personal interview, or an AASK participant may fill out form pages 2 and 3 himself, with an AASK staff member completing pages 1 and 4.

If a participant has more than seven siblings or more than seven children, the first priority is to get information on those who are alive and who are close blood relatives. If there are more than seven living and all equally related, the second priority would be to get information on those who live close to an AASK Clinical Center, the third priority would be to get information from hypertensive siblings or children.

--	--	--	--	--	--

1. Identification Number.....

--	--	--	--	--	--

2. Name Code.....

--	--

3. Visit Number.....

--	--	--	--

--	--

--	--	--	--	--	--	--	--

4. Date: mm/dd/yyyy.....

5. Patient status
 0 = not on dialysis or transplanted
 1 = currently on dialysis
 2 = currently transplanted
6. Reason this form is being completed
 1 = randomly selected patient
 2 = dialysis or transplant patient
 3 = routine data collection
7. Did the patient complete this form himself/herself?
 0 = no (A staff person filled it out, asking questions of the patient)
 1 = yes, the patient completed the form

Parent and Spouse Information	8. Spouse	9. Mother	10. Father
Is this person alive?	a. ____ (0) No ____ (1) Yes	a. ____ (0) No ____ (1) Yes	a. ____ (0) No ____ (1) Yes
