

SECTION 1: COMPREHENSIVE DIALYSIS STUDY (CDS) INTRODUCTION

IN SECTION 1 OF THE MANUAL OF OPERATIONS YOU WILL FIND COPIES OF ALL MATERIALS INTRODUCING YOU TO THE COMPREHENSIVE DIALYSIS STUDY (CDS).

THE TITLE OF THE DOCUMENT AND A BRIEF DESCRIPTION OF ITS INTENT IS PROVIDED BELOW.

CDS Key Personnel

The Key Personnel document includes a brief list of all individuals who contributed to the scientific development or execution of the CDS in a substantive, measureable way.

CDS Investigators and Co-Investigators Introduction

The Investigators and Co-Investigators Introduction document is intended to provide a brief background of all CDS Investigators (Glenn Chertow, MD, MPH; Nancy Kutner, PhD; George Kaysen, MD, PhD; Donna Brogan, PhD; and Kirsten Johansen, MD).

CDS Overview

The CDS Program Introduction is intended to provide a brief overview of the CDS project. This document includes the project abstract, synopsis, and purpose.

CDS Protocol

The Protocol is intended to give a full description of the Comprehensive Dialysis Study and also detail the project's objective(s). In addition, the protocol describes the project's background, design, methodology, statistical considerations, rationale, and overall organization.

CDS Sampling Methods

The CDS Sampling Methods document is intended to provide the MOP reviewers with a brief description of the CDS sampling methods.

CDS Variables and Measures

The Variables and Measures document is intended to provide a brief overview of the CDS Variables and Measures.

CDS References

The CDS References page is a list of all the sources used when conducting the CDS.
