

CDS Variables and Measures

Nutrition SSC

Variables

Nutritional status

Inflammation

Dietary intake

Functional status/physical activity

Patient-reported health status

Measures

Prealbumin
Albumin

C-reactive protein (CRP)

Block Brief 2000 Food Questionnaire¹

Human Activity Profile²

SF-12 (incorporated in KDQOL-36)³

Rehabilitation/QOL SSC

Variables

Patient-reported health status

Quality of life

Satisfaction with care

Functional status/physical activity

Usual activity/exercise

Depressed mood

Employment status

Measures

SF-12 (incorporated in KDQOL-36)³

KDQOL-36 symptoms/problems⁴

KDQOL-36 effects of kidney disease on daily life⁴

KDQOL-36 burden of kidney disease⁴

KDQOL-SF cognitive function⁴

Other symptoms/problems:

 Muscle weakness

 Headaches

 Postdialysis fatigue (HD patients)

 Restless legs⁵

 Daytime sleepiness⁶

 Nocturnal sleep quantity and complaints⁷

KDQOL-SF satisfaction with care⁴

Satisfaction with physician interaction⁸

Human Activity Profile²

Physical Activity Score⁹

Prime-MD two-item screener¹⁰

Working for pay: year prior and currently
