#### INTRODUCTION TO PARTICIPANT:

Thank you for participating in this study.

This questionnaire should take about 5 to 10 minutes. Please read each question carefully. Take as much time as you need to answer each question and be as accurate as possible. As with all study information, your answers will be kept private. No one will know who filled out the questionnaire, because there is only a code number at the top, not your name. Even your parents and your doctor will not see your answers. Please answer all questions honestly. Your answers are for research purposes only and may help doctors find better ways to treat children with kidney problems. If you have trouble reading or understanding a question, please ask the nurse/coordinator for assistance and she/he will be happy to help.

Questions begin on the next page. For each question, **FILL IN THE ANSWER** or **CIRCLE THE NUMBER** that best matches the answer. When you have completed the form, please return it to the nurse/coordinator.
