For each question, fill in the answer or circle the number that best matches the respondent's answer. Circle -8 for "Don't Know" responses. If a participant declines to answer a question, document -7 to the right of the response choice(s). For missing data, document -9 to the right of the response choice(s). Please document the reason for missing data (i.e., the question was accidentally skipped.)

Read each question and follow skip patterns as they appear on the form. Review the QxQ for detailed descriptions of questions.

### **INTRODUCTION TO PARTICIPANT:**

Thank you for participating in this study.

The following pages contain questions about the child's family background, birth history, developmental history and family medical history. I am going to ask you a series of questions. Some of the questions may be difficult for you to answer and exact dates may be hard to remember. <u>Please take as much time as you need, so I can gather information that is as accurate as possible</u>.

If at any point in the interview you want me to stop, let me know. As with all study information, your responses will be kept strictly confidential, and the responses you provide will in no way affect your child's clinical care. The first set of questions asks about you and your child's background. If you have trouble understanding anything I say, stop me and I will re-read the question.

Are you ready to begin?

### SECTION B: INFORMATION ABOUT YOU

The following questions are about your relationship to the child who is participating in the study.

What is your relationship to (name of child)?

### SECTION G: CHILD'S FAMILY HISTORY

The health conditions and illnesses experienced by close family members can provide important information about the child's health. The following questions ask about the medical history of the child's biological family. The child's biological family includes his or her birth mother, birth father, grandparents, aunts, uncles, full brothers, full sisters and cousins. (This does not include great aunts, great uncles and great grandparents.) *Full brothers and full sisters are defined as siblings who have the same birth mother <u>and birth father as the child</u>.* 

Some people who lost their parents at an early age, or who were adopted, may not have information on their birth family. If you are familiar with the health history of any of the members of the child's biological or birth family, please answer the following questions about these relatives' health to the extent that you are able. If you are uncertain of the answer to any question, please select "Don't Know." If you have trouble understanding anything I say, stop me and I will re-read the question.

G1. Do you have knowledge of the health history of any members of (*name of child*) birth family (i.e. parents, grandparents, aunts, uncles, siblings and cousins)?
