INDICATIONS

Table: PEDS_FlxInd

The screenshot shows the 'Flexible Sigmoidoscopy Pediatrics' software interface. The patient information at the top includes: First name: Aga_pt96, Middle name: (blank), Last name: ALEXANDER, MRN: 81750211, Birth date: 4/30/1952, and Procedure date: Nov 10, 2014 02:53 PM. The 'Indications' section is active, showing several categories of symptoms and conditions:

- Evaluation of symptoms:**
 - Abdominal pain
 - Change in bowel habits
 - Constipation
 - Diarrhea
 - GI Sx in immunocompromised host
 - Weight loss
 - Other symptoms
- Evaluation of GI blood loss:**
 - Anemia
 - Low ferritin without anemia
 - Positive fecal occult blood test (FOBT)
 - Hematochezia
 - Melena (unknown source)
 - Other GI blood loss
- Evaluation of non-malignant diagnosis:**

Condition	Suspected	Established
<input type="checkbox"/> C. difficile colitis	<input type="radio"/>	<input type="radio"/>
<input type="checkbox"/> Crohn's disease	<input type="radio"/>	<input type="radio"/>
<input type="checkbox"/> Eosinophilic colitis	<input type="radio"/>	<input type="radio"/>
<input type="checkbox"/> Graft v host disease	<input type="radio"/>	<input type="radio"/>
<input type="checkbox"/> Infectious colitis	<input type="radio"/>	<input type="radio"/>
<input type="checkbox"/> Ischemic colitis	<input type="radio"/>	<input type="radio"/>
<input type="checkbox"/> Radiation colitis	<input type="radio"/>	<input type="radio"/>
<input type="checkbox"/> Ulcerative colitis	<input type="radio"/>	<input type="radio"/>
<input type="checkbox"/> Other non-malignant diagnosis		
- Therapeutic intervention:**
 - Ablation of AVMs
 - Decompression
 - Dilatation of stricture
 - Hemorrhoidal banding
 - Polypectomy of known polyp(s)
 - Stent
 - Other therapeutic intervention
- Suspected malignancy or pre-malignancy:**
 - Abnormal x-ray or imaging study
- Screening (no prior pathology):**
 - Average risk
 - Family history of colorectal cancer
 - Family history of adenomatous polyps
- Cancer Surveillance in known prior disease:**
 - Adenomatous polyp(s)
 - Other polyps (unknown pathology)
 - Colorectal cancer
 - Crohn's disease
 - Ulcerative colitis
- Suspected or known familial syndrome:**
 - Familial adenomatous polyposis
 - Hereditary nonpolyposis colorectal cancer
 - Other suspected malignancy or pre-malignancy
- Indications comments:** (Empty text area)

At the bottom, there is a 'Primary Indication' dropdown menu and buttons for 'Save', 'Sign', 'Print Preview', and 'Close'.

Evaluation of symptoms: Abdominal pain

Table: FlxIndAbdPain

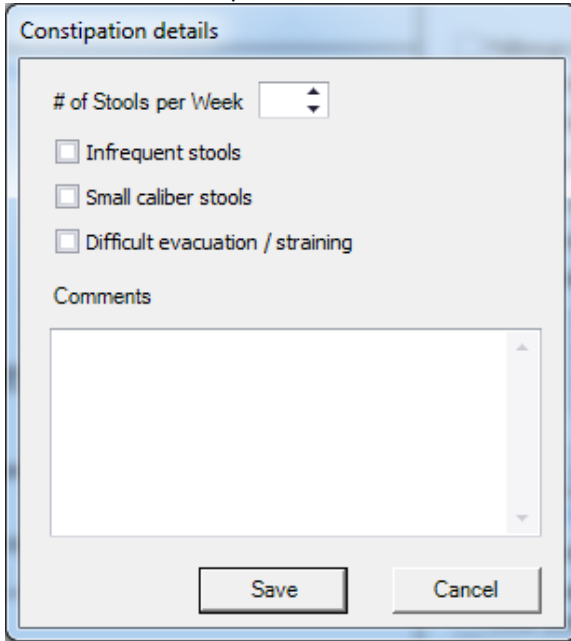

The 'Abdominal pain detail' dialog box shows the following options:

- Abdominal pain is associated with:**
 - bloating
 - dyspepsia
 - duration > 2 months
- Other abdominal pain details:** (Empty text area)

Buttons for 'Save' and 'Cancel' are at the bottom.

Evaluation of symptoms: Constipation

Table: FlxIndConstipation

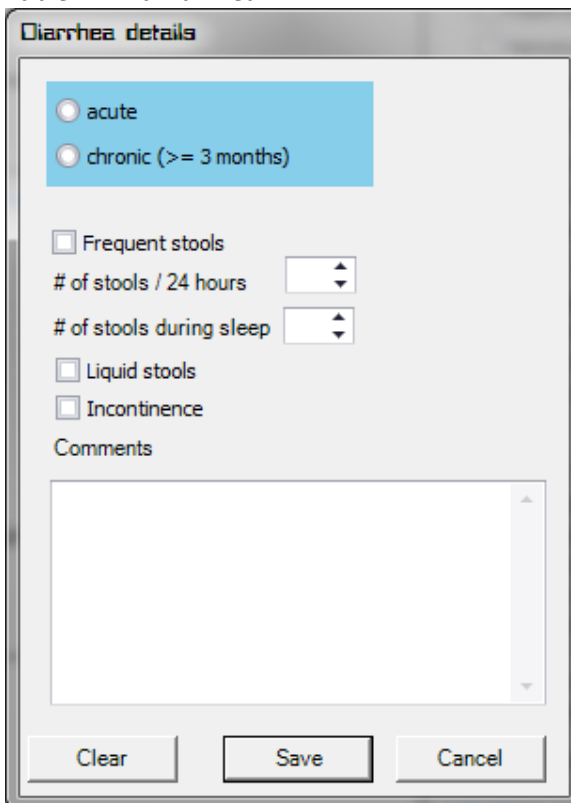

The dialog box titled "Constipation details" contains the following elements:

- A spinner control for "# of Stools per Week".
- Three checkboxes: "Infrequent stools", "Small caliber stools", and "Difficult evacuation / straining".
- A text area labeled "Comments".
- "Save" and "Cancel" buttons at the bottom.

Evaluation of symptoms: Diarrhea

Table: FlxIndDiarrhea

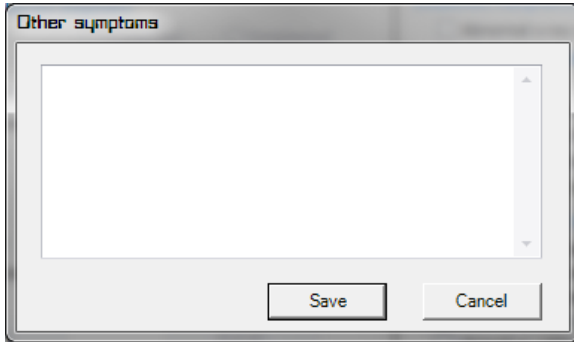

The dialog box titled "Diarrhea details" contains the following elements:

- Two radio buttons: "acute" (selected) and "chronic (>= 3 months)".
- A checkbox for "Frequent stools".
- Two spinner controls: "# of stools / 24 hours" and "# of stools during sleep".
- Two checkboxes: "Liquid stools" and "Incontinence".
- A text area labeled "Comments".
- "Clear", "Save", and "Cancel" buttons at the bottom.

Evaluation of symptoms: Other symptoms

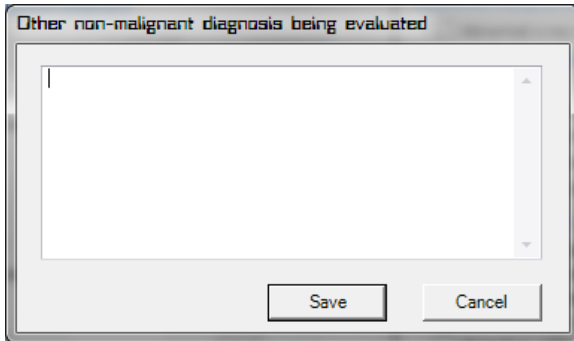

Table: FlxIndSxOther

A screenshot of a dialog box titled "Other symptoms". It features a large, empty text area with a vertical scrollbar on the right side. At the bottom of the dialog, there are two buttons: "Save" and "Cancel".

Evaluation of non-malignant diagnosis: Other non-malignant diagnosis

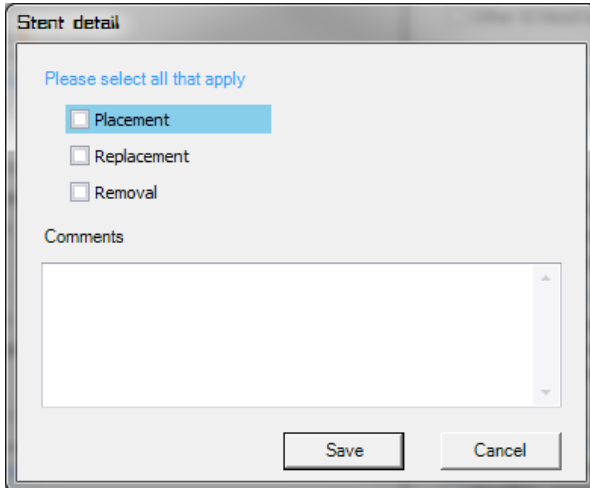

Table: FlxIndDxOther

A screenshot of a dialog box titled "Other non-malignant diagnosis being evaluated". It features a large, empty text area with a vertical scrollbar on the right side. At the bottom of the dialog, there are two buttons: "Save" and "Cancel".

Therapeutic intervention: Stent

Table: FlxIndStent

A screenshot of a dialog box titled "Stent detail". It contains a blue instruction "Please select all that apply" followed by three checkboxes: "Placement", "Replacement", and "Removal". The "Placement" checkbox is currently selected. Below the checkboxes is a text area labeled "Comments" with a vertical scrollbar. At the bottom of the dialog, there are two buttons: "Save" and "Cancel".

Therapeutic intervention: Other therapeutic intervention

Table: FlxIndIntervenOther

A dialog box titled "Other therapeutic intervention" with a large empty text area and "Save" and "Cancel" buttons at the bottom.

Evaluation of GI blood loss: Anemia

Table: FlxIndAnemia

A dialog box titled "Anemia detail" with a section "Type of anemia" containing three checkboxes: "Iron deficiency/low ferritin anemia" (checked), "Pernicious anemia", and "Other type". Below is a text field "Specify other type of anemia" and "Save" and "Cancel" buttons.

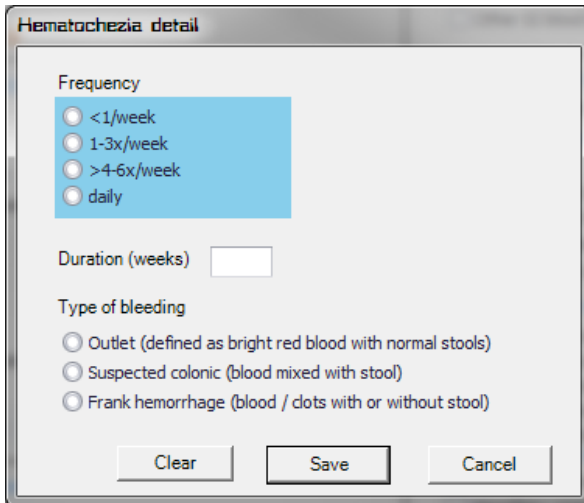

Evaluation of GI blood loss: Positive fecal occult blood test (FOBT)

Table: FlxIndFOBT

A dialog box titled "Positive FOBT detail" with two sections: "FOBT method" with radio buttons for "Digital rectal exam" (checked) and "Home screening"; and "FOBT test" with radio buttons for "guiaC (gFOBT)" and "FIT". At the bottom are "Clear", "Save", and "Cancel" buttons.

Evaluation of GI blood loss: Hematochezia

Table: FlxIndHematochezia

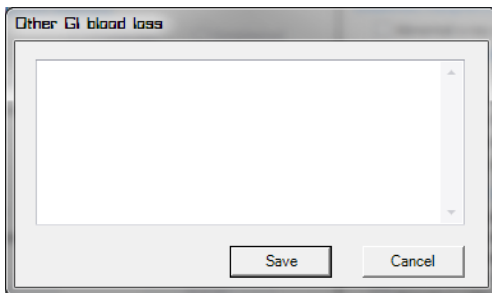

The screenshot shows a dialog box titled "Hematochezia detail". It contains the following fields and options:

- Frequency:** Four radio button options: <1/week, 1-3x/week, >4-6x/week, and daily.
- Duration (weeks):** A text input field.
- Type of bleeding:** Three radio button options: Outlet (defined as bright red blood with normal stools), Suspected colonic (blood mixed with stool), and Frank hemorrhage (blood / clots with or without stool).
- Buttons:** Clear, Save, and Cancel.

Evaluation of GI blood loss: Other GI blood loss

Table: FlxIndBloodLossOther

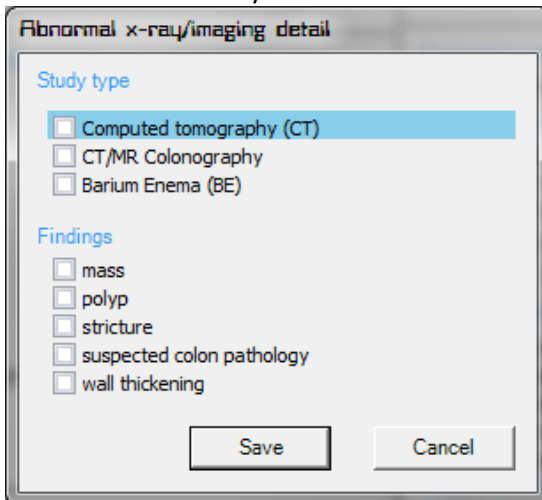

The screenshot shows a dialog box titled "Other GI blood loss". It contains the following elements:

- A large empty text area for notes.
- Buttons:** Save and Cancel.

Suspected malignancy or pre-malignancy: Abnormal x-ray or imaging study

Table: FlxIndAbnlXray

The screenshot shows a dialog box titled "Abnormal x-ray/imaging detail". It contains the following fields and options:

- Study type:** Three checkbox options: Computed tomography (CT), CT/MR Colonography, and Barium Enema (BE).
- Findings:** Five checkbox options: mass, polyp, stricture, suspected colon pathology, and wall thickening.
- Buttons:** Save and Cancel.

Antibiotics grid: PEDS_FlxPreProc_Antibiotics_grid

The screenshot shows the 'Flexible Sigmoidoscopy Pediatrics' software interface. It includes a sidebar with navigation buttons like 'History', 'Physical exam', and 'Preprocedure'. The main area contains patient information (Aga_pt96, ALEXANDER, MRN 81750211, Birth date 4/30/1952, Procedure date Nov 10, 2014 02:53 PM), consent options, a procedure personnel grid with 'Corey Cori, MD' as the Endoscopist, and various medical checkboxes for preprocedure antibiotics and indications.

Menu containing only site-specific data: Procedure performed by

Menu containing only site-specific data: Responsible endoscopist

This close-up shows the 'Procedure consent' section. It includes the question 'Was a consent obtained?' with 'Yes' selected. Below it is a 'Person consenting' dropdown menu. The 'Consent obtained by' dropdown menu is open, showing the options: Patient, Family Member, and Guardian.

Table: PEDS_FlxClockTimes

A dialog box titled "Clock Times" with two dropdown menus: "Scope insertion" and "Scope removal" (currently showing "--:--:-- AM"). It also has "Save" and "Cancel" buttons at the bottom.

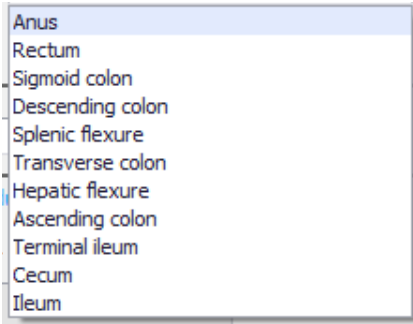

FINDINGS

Table: PEDS_FlxFind

The screenshot shows the 'Flexible Sigmoidoscopy Pediatrics' software window. At the top, there are menu options: Pathology, Images, Print, Fax, Orders, and QLQL. Below this is a patient information header with fields for First name (Aga_pt96), Middle name, Last name (ALEXANDER), MRN (81750211), Birth date (4/30/1952), and Procedure date (Nov 10, 2014 02:53 PM). A purple bar labeled 'FLX Findings' is prominent. On the left is a vertical navigation menu with buttons for History, Physical exam, Liver Disease, Indications, Preprocedure, Sedation, Procedure, Findings (highlighted), Events, Assessment/Plan, and Letters/Instructions. Below the menu are buttons for Save, Sign, Print Preview, and Close. The main area contains an 'Import Images' button, a diagram of a sigmoid colon, and a 'Normal findings' section with an unchecked checkbox for 'Entire colon'. A 'Findings Instructions' box at the bottom right provides instructions: 'Add a Finding: left click the diagram, or left click and drag to shade a region', 'Delete a Finding: right click on the finding label', 'View/Edit Details: double click on the finding label', and 'Move a Label: left click and drag the finding label'.

The 'Finding Menu' dialog box is shown, containing a list of findings. The 'Finding' label is at the top. The list includes: Anatomical deformity, Arteriovenous malformation (AVM), Diverticulosis, Fissure / Fistula, Hemorrhoids, Image taken, Melanosis, Mucosal abnormality / Colitis / IBD, Normal, Polyp cluster, Polyp, Prior surgery, Solitary rectal ulcer, Stricture / Stenosis, Submucosal lesion, Tumor / Cancer, and Other finding. At the bottom are 'OK' and 'Cancel' buttons.

Location menu used in colon findings subscreens (unless otherwise documented below):

Anatomical deformity

Table: PEDS_FlxAnatDeform

The form is titled "Anatomical Deformity" and contains the following fields:

- Location:** A dropdown menu currently showing "Transverse colon".
- Image(s) taken:** A checkbox that is currently unchecked.
- Description:** A large text area for describing the deformity.
- Diagnosis:** A text input field.
- Comments:** A large text area for additional notes.
- Buttons:** "Save" and "Cancel" buttons at the bottom right.

Hemostatic Laser

Table: TxHemLaser

The screenshot shows a software window titled "Hemostatic Laser". It contains several input fields: "Type of laser" (a dropdown menu), "Watts" (a spinner control), "Joules" (a spinner control), and "Total seconds" (a spinner control). Below these are two more dropdown menus for "Bleeding outcome" and "Procedural outcome". A large text area for "Comments" is positioned below the dropdowns. At the bottom of the window are two buttons: "Save" and "Cancel".

Other hemostatic therapy(s)

Table: TxHemOther

The screenshot shows a software window titled "Other hemostatic therapy(s)". It features a large text area for "Description" at the top. Below this are two dropdown menus for "Bleeding outcome" and "Procedural outcome". A second large text area for "Comments" is located below the dropdowns. At the bottom of the window are two buttons: "Save" and "Cancel".

Non-hemostatic therapies

Table: PEDS_TheraLauncherNonHemo

The 'Therapies' dialog box contains a section titled 'Non-hemostatic' with the following options, each with an unchecked checkbox and a right-pointing arrow:

- APC
- Banding
- Clip
- Dilation
- EMR
- Heater probe
- Injection
- Laser
- Stent
- Other therapy

At the bottom of the dialog are 'Save' and 'Cancel' buttons.

Non-hemostatic Argon Plasma Coagulation

Table: TxNonHemAPC

The 'Non-hemostatic Argon Plasma Coagulation (APC)' dialog box includes the following fields:

- 'Watts' and 'Litres / min of Ar' spinners.
- 'Procedural outcome' dropdown menu.
- 'Comments' text area.
- 'Save' and 'Cancel' buttons at the bottom.

Non-hemostatic Banding

Table: PEDS_TxNonHemBanding / TxNonHemBanding

The 'Non-hemostatic Banding' dialog box includes the following fields:

- 'Banding device' dropdown menu (set to 'Two Shooter').
- 'Total bands fired' and 'Bands placed' spinners.
- 'Procedural outcome' dropdown menu.
- 'Comments' text area.
- 'Save' and 'Cancel' buttons at the bottom.

EVENTS

Table: Intervention

Intervention medication grid: Intervention_Intervention_medication_grid

The screenshot shows the 'Flexible Sigmoidoscopy Pediatrics' software interface. The patient information at the top includes: First name: Aga_pt96, Middle name: (blank), Last name: ALEXANDER, MRN: 81750211, Birth date: 4/30/1952, Procedure date: Nov 10, 2014 02:53 PM. The 'Events' section is active, showing various event categories like Cardiac, Pulmonary, Gastrointestinal, and Other events. Below this, the 'Intervention medication' section is highlighted, showing a table with columns for Medication, Dose, and Route. The 'Add med' button is visible. The interface also includes sections for 'Interventions required?' and 'Unplanned events/interventions comments'.

This close-up shows the 'Intervention medication' grid with a dropdown menu open for the 'Medication' column. The dropdown list includes: atropine, diphenhydramine, epinephrine, epinephrine 1:1,000, epinephrine 1:10,000, flumazenil, glucagon, glycopyrrolate, hydrocortisone, hydroxyzine, lidocaine, mependine, naloxone, and promethazine. The 'Add med' button is visible above the grid.

This close-up shows the 'Intervention medication' grid with a dropdown menu open for the 'Dose' column. The dropdown list includes: 1 mg, 2 mg, 3 mg, 4 mg, 5 mg, 6 mg, 7 mg, 8 mg, 9 mg, and 10 mg. The 'Add med' button is visible above the grid.

(Dose menu customized to Medication selection)

Intervention medication			Add med
Medication	Dose	Route	
atropine			
			<ul style="list-style-type: none"> Aerosol IM IV PO PR SC SL Topical

Gastrointestinal events: Bleeding

Table: EventBleeding

Bleeding comments

Gastrointestinal events: Other GI event

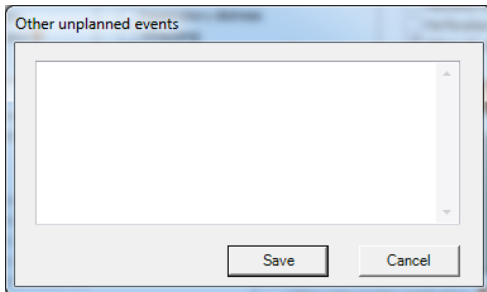

Table: EventGIOther

A screenshot of a dialog box titled "Other GI events". It features a large empty text area for input. At the bottom right, there are two buttons: "Save" and "Cancel".

Other events: Other event

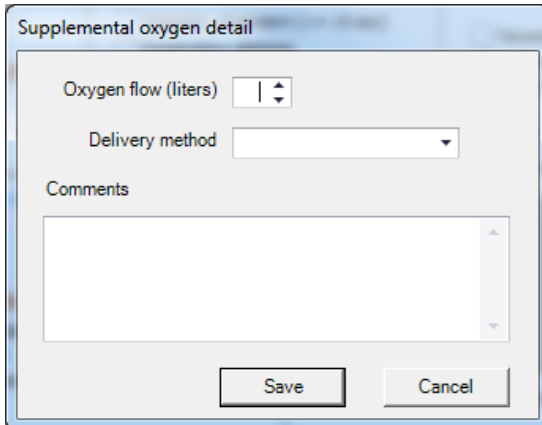

Table: EventOther

A screenshot of a dialog box titled "Other unplanned events". It features a large empty text area for input. At the bottom right, there are two buttons: "Save" and "Cancel".

If yes, specify the intervention(s): Oxygen administered

Table: EventsO2Admin

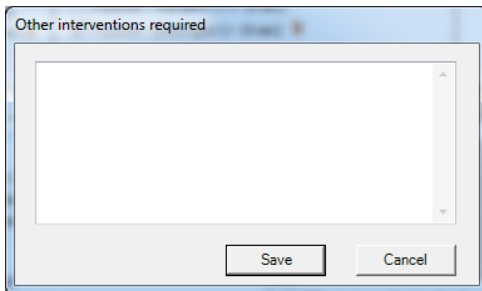

A screenshot of a dialog box titled "Supplemental oxygen detail". It contains the following fields:

- "Oxygen flow (liters)" with a numeric input field and a spinner.
- "Delivery method" with a dropdown menu.
- "Comments" with a large text area.

At the bottom right, there are two buttons: "Save" and "Cancel".

If yes, specify the interventions: Other interventions

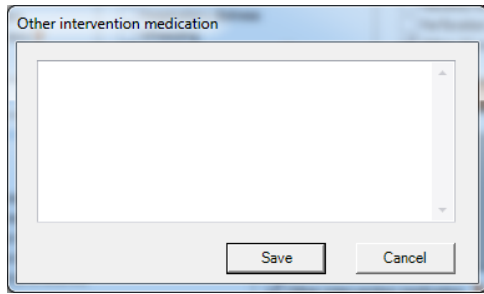

Table: EventIntervenOther

A screenshot of a dialog box titled "Other interventions required". It features a large empty text area for input. At the bottom right, there are two buttons: "Save" and "Cancel".

Intervention medications: Other intervention medication

Table: IntervenMedOther

The image shows a screenshot of a software window titled "Other intervention medication". The window has a standard Windows-style title bar with a close button on the right. The main area of the window is empty, suggesting a table or list that is currently blank. At the bottom of the window, there are two buttons: "Save" and "Cancel".

ASSESSMENT / PLAN

Table: PEDS_TreatmentPlan

New Medications grid: PEDS_TreatmentPlan_New_mediations_grid

Scheduling and Referring grid: PEDS_TreatmentPlan_Scheduling_and_Referring_grid (redacted)

The screenshot shows the 'Flexible Sigmoidoscopy Pediatrics' software interface. The 'Assessment/Plan' tab is selected in the left-hand navigation menu. The main window displays patient information for 'Aga_pt96' (ALEXANDER, MRN 81750211, Birth date 4/30/1952, Procedure date Nov 10, 2014 02:53 PM). The 'Assessment' section is currently empty. Below it, there are sections for 'Recommended screening or surveillance interval' and 'Pain control'. The 'Medication plan' section includes checkboxes for 'Start new medications', 'Discontinue current medications', 'Continue current medications', 'Await pathology', 'Medications per referring provide', and 'No medications required'. The 'New medications' section features an 'Add med.' button and a table with columns: Medication Type, Medication, Dose, Route, Sig, Disp, and Comments. The 'Scheduling and Referring' section has a 'New activity' button and a table with columns: Activity Type, Activity, When, Date, and Comments. At the bottom left, there are buttons for 'Save', 'Sign', 'Print Preview', and 'Close'.

This close-up shows the 'New medications' section. The 'Medication Type' dropdown menu is open, displaying a list of categories including 5-ASA, Anti-constipation, Anti-diartheal, Antibiotics, Antilemetic, Antispasmodics, Bile Acids, Fiber supplements, H2 Blocker, Hemorrhoidal Agent, Hormone therapy, HP Med, Immunosuppressants, Non-Steroidals, Other GI Medications, PPI, Promotility, Psychotropics, Steroids, and Varices Meds. The '5-ASA' category is currently selected.

This close-up shows the 'New medications' section with the 'Medication' dropdown menu open. The list of medications includes mesalamine, mesalamine enema, mesalamine suppository, olsalazine, and sulfasalazine. The 'mesalamine' option is currently selected.
