City, State, Zip Code

Month/Day/Year

Thank you for participating in the DAISY diabetes study. The DAISY study is one of the most important diabetes studies in the world because of the thorough data we collect.

We have been unable to contact you to set up a long distance visit. Please contact us as soon as possible. The number is **(303) 724-5774** or **(303) 724-7622**. If the call is answered by voice mail, please leave your name and your current telephone number and we will return your call as soon as possible.

Because you are at a higher risk for developing type I diabetes, we feel that it is important for you to be aware of the signs and symptoms of diabetes.

Diabetes Symptoms

Increased thirst

Increased urination

Weight loss

Irritability

Decreased appetite for solid food but increased thirst

Decreased energy

Vomiting without diarrhea

Fruity smelling breath

Labored breathing

If we do not hear from you within **14 days**, we will have to assume that you are no longer interested in participating in DAISY and will place you on our surveillance protocol.

Again, thank you for your participation, which is very important to us. With your help, we will be closer to understanding what causes diabetes and celiac. Ultimately this will lead to a prevention and a cure for a disease which affects so many.

Sincerely,

DAISY Remote Coordinator
