

DAISY Study: LTF or Surveillance participants that complete a Clinic Visit

Who

- Any DAISY participant who has not been seen in the DAISY clinic for at least two years from the date of the scheduled visit
- Enrollment status:
 - Surveillance
 - Enr, then ref fup
 - Enrolled, lost to fup
- Sign current DAISY consent
- Complete blood draw
- Eligible for \$20 visit payment
- Appreciation gift:
 - If participant is 18yrs or older **AND**
 - Participant agrees to “re-enroll” **AND**
 - Participant completes a visit in the next visit window (3m, 6m, or 1yr)
 - **THEN** the subject will be offered the Appreciation Gift at a visit 1 year from this “re-enroll” visit

Procedure

- When making scheduling calls, the scheduler will check in the DAISY database to determine Visit type:
 - Visit type=LTF for those whose enrollment status is “Enrolled, lost to fup” or “Enr, then ref fup”
 - Visit type=Every year for those whose enrollment status is “Surveillance”
- Clinic Visit
 - Have participant/parent sign current DAISY consent (CEDAR consent no longer included)
 - FFQ’s will not be sent prior to visit, it can be completed during the visit, if participant agrees
 - Complete as much of the DAISY protocol as the participant agrees to, including blood draw, other biological specimen collection, and Annual Update Interview
 - Upon completion of the visit please ask if we may contact them in one year (or sooner if Ab results are positive) to attempt to schedule a visit (re-enroll) or obtain outcome information (surveillance). **Please note this at the bottom of the clinic visit form (re-enroll or surveillance).**
