

**DCCT Data Set Documentation: Form 122**

**Form 122: Patient Experience Questionnaire**

**Purpose:** To evaluate patients' attitudes regarding the conduct of the trial and various aspects of their participation in it.

**Collection Schedule:** Close-out only.

**Data Set Name:** F1221

**Structure:** One record per patient (not obtained from every subject).

**Size:** 1393 observations of 88 variables.

**Known Anomalies:** None.

**DIRECTIONS:** The purpose of this questionnaire is to assess how various aspects of the DCCT have influenced your participation in the trial and your willingness to carry out all the requirements. That is, we want you to tell us what factors were important in your decision to come in to the clinic repeatedly for diabetes management and testing for data collection. If you were seen at more than one DCCT clinic during your participation in the trial, please answer the following questions for your current clinic.

We hope you feel free to be perfectly frank about your involvement with the study. We have made arrangements so that your responses to this questionnaire will be private. After you have completed the questionnaire, please insert it in the attached addressed and stamped envelope. Your local DCCT staff will not see your answers. Seal the envelope and return the sealed envelope to the staff.
