

DCCT Data Set Documentation: Form 49

Form 49: Request Behaviors Confidence Questionnaire

Purpose: To assess a volunteer's confidence in his ability to carry out the tasks required for participation in the trial.

Collection Schedule: Eligibility screening only (generally on at least two occasions per patient).

Data Set Name: F049CMB2

Structure: One record per patient per administration.

Size: 2832 observations of 46 variables.

Known Anomalies: None.

DIABETES CONTROL AND COMPLICATIONS TRIAL
Request Behaviors Confidence Questionnaire

A. IDENTIFYING INFORMATION (TO BE COMPLETED BY CLINIC STAFF)

- 2 CLINIC: Clinic Number _____
- 3 PATIENT: Patient ID Number _____
- 4 INITIALS: Patient's Initials _____
- 5 FORMDATE: Date questionnaire completed: _____ Month _____ Day _____ Year _____
- 6 DIASID: Administration sequences: First administration (1) _____
Second administration (2) _____

Dear Volunteer:

As you progress through the pre-randomization phase of the DCCT, we are interested in how you see your ability to carry out the various treatment tasks that may be asked of you as well as how frequently you think you would be able to carry out the tasks. We will ask this of you at more than one time during this pre-randomization period. Please respond with your most realistic estimate. Thank you.

B. DEGREE OF CONFIDENCE IN ABILITY TO CARRY OUT TREATMENT TASKS

In the boxes to the right, please indicate how certain you are that you will be able to carry out each of the following treatment tasks. First, indicate whether or not you believe you will be able to perform the task as it is described by placing a number in the appropriate box. Using the 11 point scale below, write the number which best matches your degree of confidence in your ability to do that task. Please note that 0 on the scale means that you are quite uncertain that you will be able to do the task described, while a 10 means that you are quite certain that you will be able to do the task.

0	1	2	3	4	5	6	7	8	9	10
VERY UNCERTAIN					MODERATELY CERTAIN					VERY CERTAIN

- How certain are you that you will be able to:
1. Test your urine for glucose (sugar) three or four times a day _____ 7 DIB1
 2. Test your urine for glucose at least twice a day _____ 9 DIB2
 3. Test your urine for glucose at least once a day _____ 9 DIB3
 4. Test your urine for acetone at least once a day _____ 10 DIB4
 5. Test your blood for glucose seven times a day by sticking your finger, collecting a drop of blood, and evaluating its reaction on a test strip _____ 11 DIB5
 6. Test your blood for glucose before each meal and at bedtime (four times a day) _____ 12 DIB6
 7. Test your blood for glucose one or two times a day _____ 13 DIB7
 8. Test your blood for glucose at 3:00 a.m. once a week _____ 14 DIB8
 9. Test your blood for glucose at 3:00 a.m. once a month _____ 15 DIB9
 10. Test your blood for glucose at 3:00 a.m. every three months _____ 16 DIB10
 11. Collect capillary blood specimens by sticking your finger and putting some blood in a tube, seven times in one day, once every three months _____ 17 DIB11
 12. Give yourself insulin one or two times a day _____ 18 DIB12
 13. Give yourself insulin three times a day _____ 19 DIB13
 14. Give yourself insulin four times a day _____ 20 DIB14
 15. Give insulin to yourself by using an insulin pump which involves inserting and wearing a needle in your abdomen which is connected to an insulin delivery pump you wear in or on your clothing _____ 21 DIB15

Patient .0

- 22 DIB16 Follow your diet every day
- 23 DIB17 Follow your diet most days
- 24 DIB18 Follow your diet every meal
- 25 DIB19 Follow your diet two meals a day
- 26 DIB20 Follow your diet one meal a day
- 27 DIB21 Return to the clinic every three months for the next several years
- 28 DIB22 Return to the clinic every month for the next several years
- 29 DIB23 Return to the clinic every week for the next several years
- 30 DIB24 Keep daily records of your glucose readings, insulin administration, diet, and hypoglycemic episodes
- 31 DIB25 Keep periodic daily records of your glucose readings, insulin administration, diet, and hypoglycemic episodes

C. ESTIMATE OF HOW OFTEN TASKS WILL BE PERFORMED

In this section, we would like you to indicate the percent of time that you realistically believe that you will be able to carry out each of the following tasks if you are assigned to one or the other treatment groups. We do not expect that a person would be able to perform the treatment tasks 100% of the time. Please be realistic in your estimates. The percent time could range from 0% (never) to 50% (half of the time) to 100% (always).

0% 10% 20% 30% 40% 50% 60% 70% 80% 90% 100%
 NEVER HALF THE TIME ALWAYS

If you are assigned to the standard care group, how often would you probably do each of the following treatment tasks?

- 32 DIC1 1. Test your urine for glucose three or four times a day
- 33 DIC2 2. Give yourself one or two injections of insulin a day

- 3. Keep daily records of glucose readings, insulin injections, and hypoglycemic episodes 34 DIC3
- 4. Return to the clinic for visits every three months 35 DIC4
- 5. Collect capillary blood specimens seven times in one day every three months 36 DIC5
- 6. Follow your diet 37 DIC6

If you are assigned to the experimental group, how often would you probably perform each of the following tasks?

- 1. Test your blood for glucose seven times a day 38 DIC7
- 2. Test your blood for glucose four times a day 39 DIC8
- 3. Test your blood for glucose at 3:00 a.m. 40 DIC9
- 4. Give yourself three or four injections of insulin each day 41 DIC10
- 5. Wear an insulin pump for 24 hours each day 42 DIC11
- 6. Keep a daily record of your glucose readings, insulin administration, diet, and hypoglycemic reactions 43 DIC12
- 7. Return to the clinic for visits every three months 44 DIC13
- 8. Return to the clinic for monthly visits 45 DIC14
- 9. Return to the clinic for weekly visits 46 DIC15
- 10. Collect capillary blood specimens seven times in one day every three months 47 DIC16
- 11. Follow your diet 48 DIC17
