

HBV/HIV Opportunistic Infection Log

Patient ID ____ - ____ - ____

Instructions: record **all opportunistic infections** reported by the participant or available in the medical record. Begin with a history of all opportunistic infections that occurred prior to the screening/baseline visit and continue to update the list through the completion of the follow-up period or discontinuation of the study. The list of opportunistic infections should be reviewed with the patient at every protocol visit and the log updated as necessary.

Infection Code	Specify	Start Date (mm/dd/yyyy)	Status of Infection	System ID
		___ / ___ / ___	<input type="checkbox"/> Active <input type="checkbox"/> Resolved date: ___ / ___ / ___ <input type="checkbox"/> Unknown	
		___ / ___ / ___	<input type="checkbox"/> Active <input type="checkbox"/> Resolved date: ___ / ___ / ___ <input type="checkbox"/> Unknown
