SEARCH Diabetes Related Family Conflict Survey - Parent Version for those who have a 10-17 year old child

NOTE: All variables in the data have suffix "_parent"

Think about your child's diabetes care over the **past month**. For each of the following parts of your child's diabetes care, decide **how much you argued or hassled with your child** about it during that time. Please read each question and circle the best answer.

- 1 if you **almost never argue** with your child
- 2 if you **sometimes argue** with your child
- 3 if you **almost always argue** with your child

During the **PAST MONTH**, I have argued with my child about...

		Almost Never Argue	Sometimes Argue	Almost Always Argue
1. Remembering to give shots or to bolus (pump)	rememgiveshots_CNFL	1	2	3
2. Taking more or less insulin depending on results	morelessresults_CNFL	1	2	3
3. Remembering to check blood sugars	remembld sugar_CNFL	1	2	3
