QUALITY OF CARE SURVEY

Young Adult Version

This survey is to be filled out by the person (18 years of age and older) who has diabetes.

Public reporting burden of this collection of information is estimated to average 13 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-0904).

This survey asks questions about your experiences with health care and how you take care of diabetes on your own. There are no right or wrong answers and all of the information you provide will be kept confidential. Your answers will help us learn more about the quality of health care patients and their families receive for diabetes.
