1	594	99.50	594	99.50
2	3	0.50	597	100.00

A7. IS THIS A REPEAT MEASURE? YES..... 1
 NO..... 2

REPEAT_MEAS	Frequency	Percent	Cum Freq	Cum Percent
1	10	1.68	10	1.68
2	587	98.32	597	100.00

Introduction: Thank you for agreeing to participate in the TOMUS study.

We will ask you to complete a survey like this one at several time points in the study. This survey is called the Baseline Patient Survey and is completed at a pre-surgical study visit. The survey contains questions about your expectations of the surgery, and measures of your current urinary symptoms, your quality of life, your capabilities to perform routine daily living activities, and sexual activities.

As with all of the information we collect for this research study, all of your responses are completely confidential. Your responses are never linked with your name and your name never appears on any of the research documents. Providing this information will not affect any of your services, benefits, or eligibility for coverage.

This survey should take about 15 minutes to complete. Ideally, you will be able to complete the entire survey in one sitting.

There are five (5) parts to the Baseline Patient Survey. Please read the instructions at the start of each section carefully before you begin each new section.

Try to answer every item, but do not dwell too long on any one question. We want your answers, so please complete the questionnaire on your own. After you have completed the Survey, please check to make sure you have not missed any items. If you have any questions about any of these items, please call me:

_____ at _____.

A8. What is the date that you are starting to fill out this Survey?

____ / ____ / ____
Month Day Year

Section B: Expectations of Surgery

Women with urinary incontinence can be bothered by symptoms such as urine leakage, urgency to urinate, frequent urination, etc. It is also common for women to alter their lifestyle, limit social and physical activities, or feel certain emotions because of urinary incontinence. These questions ask you to tell us what expectations you have for symptom relief **after** you recover from your upcoming bladder surgery. This will help us to understand how you think that surgery will improve your symptoms, lifestyle, and/or emotions.

GENERAL INSTRUCTIONS: Please read the first column of each section and indicate a “Yes” or “No” answer to each question by circling 1 (Yes) or 2 (No). Then, for each question marked by a “Yes” answer, work across the page and tell us about what you expect to happen **after you recover from surgery**. Circle the one response that **best** describes your expectation.

This first section asks about **symptoms** that you might currently experience because of your bladder problem.

Do you currently experience any of the following symptoms?			IF YES, Circle the one response below that best describes how much better you expect this symptom to be after you recover from surgery.				
	Yes	No	No Better	Slightly better	Somewhat better	Much better	Completely better
	Yes 1	No 2	1	2	3	4	5

Section D: Quality of Life, Part II

These questions deal specifically with your accidental urine loss and/or prolapse. The symptoms in this section have been described by women who experience accidental urine loss and/or prolapse. Please indicate which symptoms you are now experiencing, and how bothersome they are for you. Be sure to circle an answer for all items.

GENERAL INSTRUCTIONS: Please read the first column of symptoms and circle "Yes" or "No" for each symptom. Then, for each question marked by a "Yes" answer, work across the page and tell us how bothersome that symptom is for you currently.

Do you currently experience	IF YES, Circle the one response below that best describes how bothersome that symptom is for you.					
	Yes	No	Not at all bothersome	Slightly bothersome	Moderately bothersome	Greatly bothersome

D21a. If yes, what is it (are they)? _____

D22. Please go back and review all of the symptoms in Section D above, items D1 – 21, and write below the one symptom that bothers you the most. For this item, please list **one** symptom only.

Some women find that accidental urine loss and/or prolapse may affect their activities, relationships, and feelings. The questions in this section refer to areas in your life which may have been influenced or changed by your problem. For each question in this section, circle the one response that best describes how much your activities, relationships and feelings are being affected by urine leakage and/or prolapse.

Section F: Sexual Activities

This section covers material that is sensitive and personal. Specifically, these questions ask about matters related to your sexual activity **in the past 6 months**. For some women, sexual activity is an important part of their lives; but for others it is not. Everyone has different ideas on the subject. To help us understand how your bladder problems might affect your sexual activity, we would like you to answer the following questions from your own personal viewpoint.

There are no right or wrong answers. Remember, your confidentiality is assured. While we hope you are willing to answer all of the questions, if there are questions you would prefer not to answer, you are free to skip them. Please select the most appropriate response to each question by circling the answer you choose. Remember these questions are only relevant to sexual activity **in the past six months**.

F1. **In the past 6 months**, have you engaged in sexual activities with a partner?

Yes 1 **→COMPLETE SECTION G BELOW**

No..... 2 **→SKIP TO PAGE 16 AND COMPLETE SECTION H**
