Introduction: This survey contains questions about your satisfaction with the results of your surgery, and measures of your current urinary symptoms, your quality of life, your capabilities to perform routine daily living activities, and sexual activities.

As with all of the information we collect for this research study, all of your responses are completely confidential. Your responses are never linked with your name and your name never appears on any of the research documents. Providing this information will not affect any of your services, benefits, or eligibility for coverage.

This survey should take about 15 minutes to complete. Ideally, you will be able to complete the entire survey in one sitting.

There are five (5) parts to the 12 and 24 Month Follow-Up Patient Survey. Please read the instructions at the start of each section carefully before you begin each new section.

Try to answer every item, but do not dwell too long on any one question. We want your answers, so please complete the questionnaire on your own. After you have completed the Survey, please check to make sure you have not missed any items. If you have any questions about any of these items, please call me:

Section B: Satisfaction with the Results of Surgery

You have had surgery to reduce urinary incontinence (urine leakage) and to lessen the impact of these symptoms on your life. These questions ask you to tell us how satisfied you are with the result(s) of your bladder surgery related to your symptoms, emotions, and participation in physical and social activities. This information will help us to understand your views of your surgical experience.

GENERAL INSTRUCTIONS: Please read the question and symptoms in the first column. Then, work across the page and tell us about how satisfied or dissatisfied you are with the result of your bladder surgery related to that symptom. Circle the one response that **best** describes your level of satisfaction. If you **NEVER** experienced the symptom (neither before nor after surgery), **DO NOT** rate your satisfaction. **Instead**, circle **NA** in the last column labeled “**Not Applicable (NA)**”.

This section asks about **symptoms** that you may have experienced **before** and/or **after** surgery.

How satisfied or dissatisfied are you with the result of bladder surgery related to the following symptoms....

TOMMUS

Section D: Quality of Life

These questions deal specifically with your accidental urine loss and/or prolapse. The symptoms in this section have been described by women who experience accidental urine loss and/or prolapse. Please indicate which symptoms you are now experiencing, and how bothersome they are for you. Be sure to circle an answer for all items.

GENERAL INSTRUCTIONS: Please read the first column of symptoms and circle "Yes" or "No" for each symptom. Then, for each question marked by a "Yes" answer, work across the page and tell us how bothersome that symptom is for you currently.

Section F: Sexual Activities

This section covers material that is sensitive and personal. Specifically, these questions ask about matters related to your sexual activity **in the past 6 months**. For some women, sexual activity is an important part of their lives; but for others it is not. Everyone has different ideas on the subject. To help us understand how your bladder problems might affect your sexual activity, we would like you to answer the following questions from your own personal viewpoint.

There are no right or wrong answers. Remember, your confidentiality is assured. While we hope you are willing to answer all of the questions, if there are questions you would prefer not to answer, you are free to skip them. Please select the most appropriate response to each question by circling the answer you choose. Remember these questions are only relevant to sexual activity **in the past six months**.

F1. **In the past 6 months**, have you engaged in sexual activities with a partner?
