Instructions: If you have any pain that you believe is due to your incontinence operation, we want to know about it.

We are asking all women who participate in the TOMUS study to complete the Pain Diary every day for 2 weeks after surgery starting with the evening of surgery.

Please use a pen to complete this Pain Diary at the end of each day prior to bedtime.

For the Daily Pain Diary, we want you to keep a record of only that pain you believe is due to your incontinence operation.

If for some reason you miss keeping the diary at the end of the day, please do not complete it the next morning. For missed days, draw a line through the 1<sup>st</sup> page for that day, and then, just pick up where you should for the next day.

If you have any questions, call me....
