

2-DAY BLADDER HEALTH SYMPTOM DIARY

PLEASE COMPLETE THIS DIARY FIRST

Participant ID:

Instructions for completing diary

Please complete the 2-Day Bladder Health Symptom Diary BEFORE completing the 1-Day Frequency-Volume Bladder Diary. For two days, we are asking you to record every time you pee or leak urine, as well as your experiences when peeing and after peeing. The two days you record on the 2-Day Symptom Diary should be done on two days in a row.

Choose any 2 days (48-hour period of time) to keep this Diary. You will need to take this Diary with you when you are at home, work or other locations to record your symptoms every time you pee (urinate).

TO COMPLETE THE DIARY:

Begin your Diary with the FIRST time you pee after you wake up from sleep.

Questions 1-8: Complete the questions about your health and your bladder.

At the Start of Each Day: Record the time you get up for the day.

COLUMN 1:

• Every time you pee or if you leak urine (even a drop), please check one of the boxes; P=Peed or L=Leaked. If you both leaked urine and peed, check the box marked "B" for Both.

COLUMN 2:

• Write down the time you peed in this column and check the box for AM or PM.

COLUMN 3:

• If you leaked pee, check if the amount was a small (S), medium (M), or large (L) leakage.

Column 4 – Column 6:

• Check Yes (Y) or No (N) for each question about any bladder urgency, your pee experience, and your after-pee experience.

At the End of Each Day:

- Check Yes (Y) or No (N) if you had an uncomfortable or painful pee sensation or if you experienced pain while holding urine.
- Answer whether this was a typical or normal day for you. If it was not, record why in the box.
- Record the time you go to bed.
