

Data and sample sharing form

Study name:

DCC PI and contact information:

Steering Committee chair/study PI and contact information:

NIDDK Project Officer:

Date study was funded:

Date of renewal(s):

Date(s) of end of intervention, if applicable:

Name of dataset	Dates included	Proposed date or time-line for sharing	Policy for when data will be shared with other investigators
Baseline data			<i>Two years after recruitment is complete (last initial visit) or within 6 months of publication date</i>
Primary outcome publication – analytic dataset			<i>Two years after database is locked for analysis or within 6 months of publication</i>
Secondary outcome(s) publication(s) – analytic set(s) - LIST			<i>Two years after the database is locked for analysis of these outcomes</i>
Entire dataset from intervention study			<i>Three years after last study contact (FDAAA’s primary completion date)</i>
All <u>complete</u> data elements on full cohort in observational study			<i>Two years after the end of each project period</i>
Analytic dataset from major papers			<i>6 months after publication appears on line</i>
Ancillary studies (list)			
Pilot studies (list)			

Samples

Current NIDDK policy is that samples will be shared no later than two years after the end of each project period.

Samples collected	Dates	Proposed date or time-line for sharing
DNA		
Urine		
Plasma
