

Internal Request Form

If you are interested in requesting samples from your collection stored at the NIDDK Repository, update and submit the form below and a member of the NIDDK Central Repository staff will contact you within 7-10 days. If desired, you may save the form instead and return to complete it at a later time.

Request Details

Study*

(PROBE) A Prospective Database of Infants With Cholestasis

Select the desired studies. Hold down "Control", or "Command" on a Mac, to select more than one.

Comments

The DCC would like to request Organ1 biopsy and Organ2 tissue slides be sent from the Fisher repository for an upcoming Data Meeting, Jan 2014 as part of the ChiLDREN Internal2 protocol. These samples are requested as part of the parent ChiLDREN Internal1 study (formerly PXXX), NOT for an ancillary study. See attached excel sheets for list of requested slides. The slides require staining at the Anytown University site so if slides could be shipped by November 30, 2013 that would be greatly appreciated.
